THE Senatorial question in Virginia does caucus nomination of Daniel. Although that eminent Bourbon got into Barbour's den and muzzled the lions there is great dissatisfaction over the feat. A Washington dispatch recites the following: "Although the Democratic caucus at Richmond has nominated Daniel as Senator, to succeed General Mahone, the Bourbons here are disturbed by rumors they have received to the effect that the Barbour men feel so sorely they talk of bolting the nomination, and should thirty of them hold out against Daniel it would be possible to elect an independent candidate, that is, if the bolters would combine with

CAPT. ROLF's resignation as a member of the Board of Gas Trustees, affords an opportunity to do what should have been done in the first place, place a Republican upon the Board. This Republican should be as everybody not governed by selfish motives will admit, Dr. T. H. Logan. Dr. Lygan would represent not so much the Republican party as the business interests of the city. His name stands not for minority representation on the Board, but for experience, capacity and faithfulness to the trust. Of these Capt. Rolf lacked only experience; nobody questioned his for the position. He was accept able to both parties, but since he sees fit to resign peremptorily, the only, proper thing to do is to appoint Dr. Logan to the

In the argument before the Supreme Court of Ohio, the counsel for the Republican Senatorial candidates in the Hamilton county frauds pertinently puts the questions at issue as follows: "Since that questions at issue as follows: 21st day of October, 1885, until this hour, every public and private interest has been set aside or subordinated to the trial of people by the fiat of this Court, or whether the will of the people, not only in this election, but for all time to come, is to

THE Register finds a reason of great de light in the President's message-it is just such a Democratic documentas the Register expected from our Democratic President. The production having so nicely fit into expectation, the President will be hurt to know that the Register thought a half column of it unworthy of publication, and so dismissed it with this apology "Here follow summaries from the Treas-

Brown has written to parties whose appointment he has procured letters in form and substance like the following:

"DEAR SIR:—I have secured your apmarket would undoubtedly have followed. As it was, there was time for reflection, and, what was more important, time fo the so-called Vanderbilt houses in Wall street to arrange for the support of their favor they were able to turn the tide of prices upward immediately after the first nslaught on the market, and consequently anotations at the close were higher than at the opening.

There was really no reason why a panicky feeling should have followed the death of this modern Crossus, inasmuch as his large holdings of securities were not to come on the market as if he were insolvent, but were safely lodged with his heirs, as were those of his rich pregame to create a fight and induce timid people to sacrifice their property. In this game they seem to have been fortunately defeated. There is but one man whose death, even with an intervening night for reflection, would thoroughly convulse Wall street, and his name is Jay Gould.

The Case of Collector McGraw Still un Ta What the President Says About His Case-How the Message Has Been Beceived-Kelley's Case.

sected Disputch to the Intelligence Washington, D. C., Dec. 9 .- Collecto McGraw and Editor Powell were among the West Virginians who went home to night. Mr. McGraw declined to be interviewed regarding the status of his case. It six all nominations not acted upon when the Senate adjourned in the Spring are dead and new nominations must be made It is expected the President will announce his policy in reference to these appoint ments in a few days.

Mr. Cleveland stated this evening t callers that he intends in the future to send in his nominations in batches of twenty-five, and it is expected McGraw' name will be among the last.

A distinguished Republican who stands high in the councils of his party was on the floor of the Senate to-day, and stated to some of his friends this evening that he is satisfied "there will be no concert of action on the Republican side in opposi-tion to the President's appointments." Mr. McGraw thinks that nothing short of a caucus resolution to oppose all nominations can defeat his confirmation.

HOW IT IS RECEIVED. The Silver Men and Free Traders Disgusts

Washington, D. C. Dec. 9.—The Pres dent's message is variously received among Democrats. The free traders are simply disgusted with it, and declare that the President has consulted Sam Randall on much in getting up his tariff views They declare also that his views on the subject will not receive much consider tion from them. It was noticeable that when the message was being read Randal and his friends were smiling and happy and the state of t

The Republicans, of course, greatly en-loyed looking over to the Democratic side and seeing the discomfiture of their oponents. The Attorney General suggests the advisability of building jails at each place in the country where the United States Courts are held. The necessity of building a Government penitentiary where all persons are convicted of United States offenses could be confined is strongly urged. Such convicts, he said, could be employed on the manufacture of supplies, exclusively for the government, which work would assist in making the institutions self sustaining. ns self sustaining.

An official of the company studed that the connections to would be made by evening on one of the pipe lines to the city, and by to-morrow morning the other would be got into working order. From a pressure of 70 pounds at Sandy Creek it fell to 2) pounds at here after the break. The supply will be short only at the mills along the Allegheny river. The break is an expensive one for the company.

"It is well that it happened in weather like it is to-day," said one of the officials of the company.

A SHOET SUPPLY.

A SHORT SUPPRY.

Users of large quantities of gas in the city were notified by the Philadelphia Company this afternoon that the supply was likely to be cut off at any time, and that they might prepare for it. At the Hotel Anderson they made arrangements pound, and 2,300,000 pounds of the article which paid a duty of 35 cents a pound, and yet the latter importations were scarcely of less real value per pound then those which paid the higher duty. It is against the plain loophole for evading the tariff that the tobacco growers of the country want relief.

THE DEAD MILLIONAIRE.

Chauncey M. Depew Describes Vanderbilt' New York, Dec. 9.—Chauncey M. Dewith Mr. Vanderbilt than any other person in the world. He has been his adviser for twenty years. Mr. Depew talked freely to a correspondent at his home, in East Forty-fifth street, this evening, and said: "I don't think that Mr. Vanderbilt had any idea that he was about to die. He told an intimate friend of his about two weeks ago that he thought that if he passed his 65th birthday he would be good for twenty years more of life. There was some thing about the age of 65, which he omething connected with the family his-ory, I believe. Mr. Vandardii his-

something connected with the family history, I believe. Mr. Vanderbilt was always a hard worker, and his large frame and immensely vigorous physique were the results of the work he did on his farm on Staten Island.

"He used to get up at 4 o'clock every day, and he has teld me that he had often come into the city and been back on the farm ploughing by 7 o'clock. When he went to the New York Central at the sge of 43, he knew nothing about railroads and had to work very hard. He still kept up his early rising, was always at work at up his early rising, was always at work at 9, and worked all day long and almost always until late in the evening. He was the simplest of eaters at the table, and never drank anything, except an occasional glass of claret. Nor did he ever use glass of claret. Nor did he ever use tobacco in any form. He was extremely fond of a good horse, and was one of the best drivers that ever lived. He became, by study and attention, one of the best judges of pictures in this country, as is testified by his gallery, which undoubtedly contains the best collection of modern paintings in the world.

FEARLESS OR ASSASSINATION. "Another of his peculiarities was his fearlessness. He was constantly in re-ceipt of letters, informing him at what nour and place he would be shot or stabhour and place he would be shot or stab-bed or otherwise killed, but they never in-timidated him. His habits were regular and he drove out daily at a certain hour along the same roads and by the same places, went to his office at the same hour and entered and left in the same way. The letters he received never stopped him from these journeys. He always handed these letters to me, but he would never permit me to investigate them. Mr. Vanderbilt was a great family man, was fond of his children and of having family gatherings at his home. He never cared for large parties or dinners. He liked to have a few friends drop in and talk with him or play whist or euchre.

GENERAL FOREIGN NEWS.

the Political Eugma in Great Britain Servo-Bulgarian Affairs.

LONDON, Dec. 9.-The tension of public feeling which has been caused by the political uneasiness of the past three weeks culminated yesterday in the report that Lord Salisbury and his colleagues of the Cabinet had resigned, thus leaving the country without either a government or a Parliament. The report was untrue, and it was not even probable that Lord Salisbury would take such action as yet, for the following reasons:

He had persuaded himself that an alliance with Parnell would estrange from the Troy party all the Orangemen and derate British supporters. Thus he would still be left without a majority. Therefore he believed that a better pay-ing game is to put no obstacle in the way of the pending intrigue between the Radicals and Parnellites; to even encour-age that coalition to carry a motion of want of confidence in his government, and then it avances the intringer and an and then to expose the intrigues and ap peal to the country on an anti-Irish cry. This programme involves the retention of office by the Tories, at least until February 5th

office by the Tories, at least until February 5th.

During all the shifting and hedging, the combinations and intrigues which will crowd the interval, they will control the Treasury purse strings and the vast patronage of the British Government. This fact should not be overlooked in estimating the probable strength of the parties two mothins hence.

Another element of the situation which may have a potent influence is the attitude of the Queen. It is known that her Majesty is disgusted with the present condition of affairs, and it is certain that she will afford every facility in her power for carrying out the above outlined programme if it is decided on by Lord Sallshury.

LONDON, Dec. 9 .- Tennyson's new vol ume dispels the fears raised by his recent efforts in dramatic poetry. It contains some things equal to his best, and few below his average. It ranges from a dramatic idvl in Irish dialect to the simplest lyric verses. It is dedicated "To my good friend Robert Browning, whose genius and geniality will best appreciate what past ten days five counterfeiters have been may be best, and make most allowance for may be best, and make most allowance for what may be worst."

The first poom is inscribed to Edward Fitsgerald, the translator of Omar Khayyam. Among the notable poems is a long philosophical one in blank verse, with exquisite lyrica interspersed, from which is taken the following:

"But right be torse for devicing years."

"But rain the tears for darkened years,
As laughter over wine,
And rain the laughter as the tears,
O, brother mine or thine.

"For all that laugh and all that weep And all that breathe are one Slight ripple on the boundless deep That moves and all is gone." The following quatrains are addressed

"Oh, follower of the vision still In motion to the distant gleams Howe'er blind force and brainless will May jar thy golden dreams: "Of knowledge fusing class with class, Of civic bate no more to be; Of love to leaven all the mass Till every soul be free;

"Who jet like nature would'st not mar By changes all too fierce and last, This order of her human star, This heritage of the past."

There were also gorgeous examples of ancient Persian textile fabrics, which were very rich and beautiful.

A MARVELOUS ESCAPE. Seaman Swept Overboard Regains the

CHICAGO, Dec. 9 .- Captain Sterling, of the schooner Mercury, from Ludington, tells a thrilling story of the marvelous rereue of a seaman named Anderson, who ras carried off the deck by a tremendous sea in mid-lake during the fearful gale of Friday night. The schooner was laboring heavily at the time and it was impossible to round to or make any other effort to rescue the unfortunate man. His companions had given him up for lost, when suddenly Captain Sterling was thunderstruck to see him holding on to the fender and endeavoring to climb over the stern. He was quickly pulled on board. The escape of the man was miraculous. He says that the sea which washed him overboard carried him about forty feet from the vessel, and in the direction which she was sailing. He is a good swimmer, and when he came up on the crest of the wave he could see the ship's light shining faintly through the driving snow storm, and struck out as best he snow storm, and struck out as best he could to get as near them as possible. In his life and death struggle he was materially assisted by the undertow or back sea, which, being strong, dragged him to-ward the vessel. Some of Ferd. Ward's Property Selzed. CHICAGO, Dec. 9.-Hiland G. Batchel or, of New York, yesterday filed a creditor's bill against Ferdinand Ward, Ella C. Ward, his wife, and Mary G. Green, her mother. The proceedings are connected with the recent suit filed against the firm of Grant & Ward. Batchellor obtained a of Grant & Ward. Batchellor obtained judgment against the firm of Grant Ward, last October, for \$22,323. Ward said to own numerous lots in Wrightwood which are supposed to be held in trust for him by his wife and mother-in-law. It is alleged that Ward concealed his owner ship of the property to defraud his credi-tors. The Wrightwood property, it is be-lieved, will not leave any great margin after the satisfaction of the judgment. Sheriff Hanchett made a levy on it on an

HERE'S A HOWDY-DO!

founded-The Election Programms Quashed by the Committee-How the Scheme was Being Worked.

The latest from Parkersburg in relation to the postoffice fight in progress at that point is of a somewhat startling pature. hands and there's "a pretty howdy-do" fact was reported that in order to settle the trouble that was hovering over and the trouble that was hovering over and threatening to fall on him with the force of a pile-driver, Senator Camden had called to his aid the Democratic Executive Committee of Parkersburg, and they had decided to hold a popular election, the man receiving the highest number of votes at this election to also receive the commission as postmaster. It was on Saturday evening that the announcement was made that an election would be held on Saturday, January 9, and four candi-

was made that an election would be held on Saturday, January 9, and four candidates were named to be voted for.

The committee as appointed last year consisted of A. N. Williams, J. B. Dorsey, L. B. Dellicker, C. C. Martin and F. Jenkins. W. J. Hill was appointed but would not have it, and John B. Dorsey was appointed as his substitute. The election notice was signed by only C. C. Martin and F. Jenkins, of the committee, and Col. W. J. Hill. It appears that Mr. Delliker, who is chairman of the committee, and Mr. Dorsey, knew nothing of the conference with Senator Camden or had tee, and Mr. Dorsey, knew nothing of the conference with Senator Camden or had the slightest inking of the scheme until they read the notice for the election, purporting to come from their committee, in the State Journal of saturday. The candidates named in this notice were, first, All. N. Williams, who is understood to be Camden's favorite for the postolice, and to whom he would give the plum were it not that he fears that such a proceeding would call down on him the curses of generations yet unborn, and it will also be observed that Williams is a member of the committee; he was also re-

a coalition with the Whigs to resist Parnell. Unless Mr. Gladstone moves a vote
of want of confidence in the Government,
the new Parliament will immediately adjourn until February.

The scenes in the forum (Court House square) are said to have been wildly picturesque. As time flew on new candidates sprang up like the weeds of the night, until Monday noon found the following named in line: Mrs. Waiter S. Sands, Mrs. Mary L. Murphy, Miss Lettie Stinchcombe, A. N. Williams, L. N. Logan, R. E. Horner, J. C. Neals and Channing M. Smith, of the Index "and others."

In the meantime it was given out that Horner and Gambrill would nover consent to the election scheme. Horner runs a newspaper that has on numerous occasions proved itself capable of becoming a very sharp and large sized thorn, and therefore it was necessary that something must be done to undo what had already been done.

Then also, the members of the committee who had not been consulted were making something of a disturbance. The result was, that late on Monday ovening a manifesto was issued, this time from the true fountain head, quashing the whereases and resolves of Saturday. This was followed by another riot and all was not lovely. Major L. N. Logan was a candidate not recognized in the famous order of Saturday. As soon as he saw that he notified Senator Camden that he was in the field; that he came from a family of braves that had stayed with the senior Senator in all his political rackets and now to be cruelly deserted was more than he or his friends would was more than he or his friends would

etc., etc., and it is said the unauimity and good will with which it is all done is very cheerful. The general feeling is that there should have been an election held. As matters now stand the responsibility of choosing a successor to Hon. C. F. Scott is again placed on the shoulders of Sanato-Camden. A Sanato-Camden. Camden. A Senator's lot is not a happy one in such times as these.
